BLACK ANGUS EMBRYOS

Here at Mar Mac we do not flush just any cows, these are proven genetics that have raised bulls that top the bull sale and females that stand out in the herd! All of these Black Angus cows go back to the Brittany - Bridget cow family. This cow family was the founding female of our black Angus herd.

We now have 7 generations of females out of this line. All of this mating have produced top selling bulls in our bull sales in the past 3 years.
